

The Freddy Max is designed to vacuum out, filter and return coolant for re-use.

It has a tilting filter tank, enabling quick and easy emptying of the 60 litre basket, which feeds through to a secondary 37 litre turret. This filters out further, enabling double the filtration without any added work for the operator or additional space required. Designed to vacuum out coolant from machine tool sumps, machine beds, drip trays, conveyors and even the shop floor with the dedicated floor tool and recycle it for re-use.

- The most widely used and well established coolant vacuum range in the world
- Recycles coolant and extends coolant life
- Enhances coolant performance and production quality
- Significantly reduces coolant usage
- Improves and extends tool life
- Extensively cuts waste disposal costs
- Removes contaminants that cause bacterial growth
- Removes contaminants that cause micro abrasions - that can lead to dermatitis
- Complete with 24 month warranty

## Specification

- 500 litre tank capacity
- Finished in oil and acid resistant powder coated paint
- Two 37 litre perforated steel filter basket
- Comes with complete with full set of tools and hoses
- Filters available from 1-1000um

## Freddy Max Unit Models

Capacity: 500ltr | Length: 1955mm | Width: 840mm | Height: 1530mm

Power unit	# of phases	Weight (empty)	Weight (full)*	airflow	water flow in	water flow out
2kW 240v	1	240	740	2200	270	130
2kW 110v	1	240	240	2100	250	120
3kW 240v	1	250	750	2900	270	130
3kW 110v	1	250	750	2800	260	120
4kW 415v	3	300	800	3800	250	120

Weight in kilograms (kg) \*water flow tested using a 51mm hose at the same level as the fluid being vacuumed. If the machine is higher than the fluid, the flow rates will be slower than the quoted values.

## Optional Freddy Service agreement

The Coolant Health Unit comes with a 24 month warranty and optional 12 month service agreement, which includes:

- Two service visits per year - inclusive of labour and travel
- Priority on call outs
- Reduced breakdown call out charge
